JUNE WEDDINGS.

One of the prettiest home weddings which took place here lately occurred at the home of Mr. and Mrs. G. J. Van Duren, corner Twelfth street and College avenue, on Wednesday evening at 7 o'clock. The bride was Miss Christine Van Duren and the groom was William Rowe Cox. The ceremony was performed by Rev. G. H. Dubbink, pastor of the Third Reformed church. The bride was dressed in a fine gown of white India mull over white silk, with lace insertion, and carried a bouquet of bridesroses and white sweet peas. Miss Cathryn Cox, the maid, wore a white gown, with bridesmaid's roses, and Alfred Van Duren, brother of the bride, was groomsman. As the beautiful wedding march was played by Miss Agnes Habermann they took their places beneath a bower of ferns and daisies and the pretty ceremony took place. After congratulations the guests, numbering about a hundred and fifty, sat down to an elaborate supper, served under the able direction of Mrs. R. N. De Merell, the young friends of the bride waiting at the tables. Many telegrams were received from friends in the East who were unable to be present.

Many beautiful gifts were received. The young couple left that evening for an extended trip to Boston, New York, Saratoga, Rochester and other eastern cities, followed by the best wishes of a host of friends. Mr. Cox has a fine position as traveling salesman with the Vacuum Oil Company of Chicago, and they expect to make their home in Ravenswood, a suburb of Chicago.

Raymond E. Hoek and Miss Cora M. Phernambucq were married Wednesday evening at the home of the bride's parents, Mr. and Mrs. C. M. Phernambucq, West Seventh street. The ceremony was performed by Rev. G. H. Dubbink, and Miss Nellie Phernambucq, sister of the bride, acted as bridesmaid, while John Hoek attended the groom. Nearly a hundred guests witnessed the pretty ceremony, which took place before a bank of smilax, ferns and flowers. The bride wore a handsome gown of white silk. They left for a trip through the northern part of the state, and upon their return will reside at 12 West Fifteenth street.

Miss Agnes Karel and William R. Vandenberg were married Wednesday evening at 129 East Sixteenth street. Rev. A. Keizer officiated. The groom is a trusted employe of the H. J. Heinz company.

F. J. Koning and Miss Dena Groters were married by Justice Arthur Van Duren on Wednesday afternoon. They will reside on East Sixth street.

Ben Mulder and Miss Allie Vegter were married at Zeeland on Wednesday, Rev. J. L. Haan officiating. Many from here attended the wedding. The groom is a teacher in one of the Zeeland township schools.

COMMITTEES FOR THE NORMAL.

A public meeting was held Monday evening at De Grondwet hall to appoint more committees to take charge of the work to secure the normal school which will be established in Western Michigan. The committee on sites, through the chairman, Geo. E. Kollen, reported that they had options on five sites ranging in price from \$4,000 to \$5,000. A committee to prepare a prospectus of Holland, its railway and steamboat facilities and other advantages was appointed, consisting of the committee on sites, Attorneys Kollen, Post and Vischer and Hon. I. Murslije and Dr. H. Kremers, and to which G. Van Schei-ven was added. A finance committee was appointed as follows: Geo. W. Browning, W. H. Beach, J. G. Van Putten, J. C. Post and J. J. Cappón. Mayor De Roo and Attorneys Diekema and Kollen will confer with the electric railway company on the subject of extending its tracks if needed.

MUZZLE YOUR DOG.

Wednesday evening a dog belonging to Wm. Swift became rabid and created considerable excitement on Eighth and River streets for some time. He was finally killed. It is said the animal bit several other dogs. The order issued by the board of health this spring that all dogs should be muzzled, will be strictly enforced. It certainly should be, as a rabid dog can endanger the lives of many.

DOUBLE TRACK.

The electric railway company has distributed rails along Eighth street, and work on laying a second track will be started at once. The company is determined to give the best and quickest service possible to its patrons, regardless of expense.

Holland and English books and Slag & Brink.

MR. AND MRS. J. W. BOSMAN.

HAPPY CELEBRATION.

Mr. and Mrs. J. W. Bosman celebrated their fiftieth wedding anniversary on Saturday last and during the entire day their home on East Ninth street was thronged with friends to

congratulate the worthy couple and wish them many years more of married happiness. Mr. and Mrs. Bosman are among Holland's oldest residents and none here are who are more worthy of the highest respect than they.

SPOKE AGAINST SOCIETIES.

The convention to discuss secret societies, held at the Fourteenth Street Christian Reformed church on Monday and Tuesday was quite well attended. Rev. H. A. Day of Grand Rapids, state president of the National Christian Association, presided. Rev. D. R. Druker, the popular pastor of the church, made the address of welcome, to which Rev. Day responded. The speakers contended that the lodge conflicts with the worship of God and duty to the family. The subject of labor unions was also discussed, but on this subject the speakers and others who took part were divided. The church choir rendered excellent music during the sessions.

REUNITED AFTER 45 YEARS.

On Sunday Mrs. Sybil R. Hopkins of Detroit met her brother John C. Robart of Olive township, after a separation of 45 years. She is 74 years of age, and when she married Mr. Hopkins they went to Chicago and later to Detroit, where her husband died about a year ago. She is nearly blind. Mr. Robart formerly resided at Coldwater, and the brother and sister lost trace of each other until about two years ago they learned each other's location through relatives. She is now visiting her niece, Mrs. A. Drinkwater, 133 Central avenue.

STRIKERS ON THE PURITAN.

Capt. Boswell of the steamer Puritan discharged a coal passer the other morning and as a consequence several firemen, deckhands and water carriers quit. They wanted to go back to Chicago on the boat, but the captain refused to allow them on board, and upon the boat's arrival in Chicago new men were secured. Deputy Sheriff Hans Dykhuis was called here to quell any trouble that might take place, but his services were not needed.

GAS BY AUGUST 15.

The prospects are that Bascomb Parker will furnish the citizens with gas not later than August 15. About 10 miles of mains have been laid, leaving only about three more miles to lay. Work at the plant is progressing nicely. The Pessink store rented by them is being filled with material and gas stoves.

STOLE WHEAT.

A few days ago it was discovered that boys had been stealing wheat from the cars on the siding of the Walsh-De Roo Milling company. Holes were bored in the floor of the car through which the wheat ran out. Investigations were made and upon close questioning several boys admitted the theft.

BANGOR SHUT OUT.

The Holland team went to Bangor on Wednesday to play the fast team there. The locals, however, proved too much for the Bangor team, and the score was 9 to 0.

COUNTY POLITICS.

Unless all signs fail the battle for the Republican nomination for sheriff of this county, which will be fought out next year, will be the liveliest and the hardest fought in the county's history.

Even now the skirmish for position is on and when the bell rings next spring the race will open with redoubled energy.

Holland will undoubtedly present Marshal Vander Haar as a candidate. Grand Haven has C. Nyland. Alledale will name Jesse G. Woodbury and Georgetown will come out for Cornelius Andrie.

Perhaps there will be others in the field before the gong sounds. At any rate there will be lots of fun and the pace will be a hot one.—Grand Haven Tribune.

MR. AND MRS. J. W. BOSMAN.

LAUNCHING OF THE GRAND HAVEN.

Mayor Hoyt and Aldermen Kamhout and Baker, Grand Haven's representatives at the launching of the great car ferry Grand Haven, returned from Toledo late last night.

The launching occurred at three o'clock Saturday afternoon at the yards of the Craig Ship Building Co. two miles below Toledo.

The Grand Haven will be a ship of which this city can well feel proud. While not the largest car ferry on the lakes there is every reason to believe that the new boat will be the fastest and also the most powerful in American waters. She has been built with those ideas ever in view. Her very lines and appearance in incomplete state show staunchness in every rib. The powerful boilers and engines indicate what can be expected of her as an ice crusher and fast steamer.

Capt. Crosby does not believe that an ice pack can form outside of this harbor in the future which will keep it closed while the Grand Haven is in operation. Besides the new boat is expected to make full round trip every day between Grand Haven and Milwaukee, averaging nearly twenty miles an hour, which is wonderful considering the

The Grand Haven will be supplied with four tracks carrying eight loaded freight cars to a track. Every day she will leave 32 cars laden with freight of all kinds at this port.

The Grand Haven is 315 feet long, 52 feet beam and 33 feet depth. It will be supplied with two triple expansion engines and eight huge Scotch boilers, each 124 feet in diameter. The vessel complete will cost nearly \$400,000.

By mid-August it is expected that the Grand Haven will be here.—Tribune.

If there is any defect in your vision, or any discomfort in using your eyes, W. R. Stevenson the optician can remedy the trouble with properly adjusted lenses. Examination free.

PENINSULAS WERE EASY.

The Peninsulas, a colored team from Kalamazoo, came here Saturday to show the locals a trick or two. They proved easy for Captain Ball and his followers, and the result was 12 to 2.

FAIR ASSOCIATION.

The Board of Directors of the fair association will meet next Tuesday at the City News office.

PERSONAL.

John Buscher and son of Overisel were in town on business yesterday.

Henry Kleyn returned this week from an extended trip through Oregon and other Western States. He reports the mining interests in Eastern Oregon as very promising.

Prof. and Mrs. Joseph Warner are visiting friends in Grand Rapids to-day.

PROCLAMATION!

Whereas there is good reason for believing that the inhabitants of this city are in peril of being subjected to the attacks of mad dogs owing to the prevalence of the disease of rabies in this State, as reported by the State board of health, taken in connection with recent reports of mad dogs in this city and vicinity,

Now, therefore, I, Cornelius J. DeRoo, mayor of the city of Holland, by virtue of the power vested in me by section 5 of ordinance No. 189 entitled, "An Ordinance Relative to Dogs," do hereby require that all dogs shall, from the date hereof until September 1st next, ensue, wear good and substantial wire gauze, or leather muzzles, securely put and fastened on so as to prevent them biting; and it shall be the duty of the marshal, his deputies, and any constable or police officer of this city, to kill and bury any dog going at large without such muzzle during the period named herein.

Given under my hand this 20th day of June, A. D. 1903.

CORNELIUS J. DEROO, Mayor. No. 206 River Street.

John Vandersluis

Of course everyone knows that we sell Handkerchiefs, but you may not know that we just picked up a big drive in ladies' fine Swiss Handkerchiefs, regular 50c values, that we shall sell while they last for

25c and 29c each.

You can buy a \$1.00 black underskirt in most any store, but the Mercerized-Sateen Skirts we sell for one dollar have an extra finish, are well made and are as good as most skirts sold for \$1.25 elsewhere. Just come and see if we are not about right. NO TROUBLE TO show them.

Special Sale on Walking Skirts

We must reduce our stock of Walking Skirts at once, as we have new goods coming in and must reduce stock at once. You can make money by buying a skirt now. A good line to select from.

John Vandersluis

N. B.—Just received a line of cotton and wool Plaids for children's dresses at 4c a yard.

JUNE 26, 1933.

ALLIGATORS AS BOATMATES

Experience With One That Had Been Apparently Killed.

Alligators move rapidly under water, are hard to see, harder to hit, and the harpoon will penetrate only the least susceptible portions of the body. Nor does the title to the hide necessarily pass with making fast the weapon.

One afternoon in the Chesapeake Bay river I harpooned a large alligator which towed me up and down the stream for an hour or two and then coiled in its deepest part. I pulled on the line until the boat was directly over him and stirred him up with the harpoon pole. He rolled himself up on the line in the manner peculiar to sharks and alligators and banged the boat suggestively. We rowed to the bank and, making fast to some bushes, hauled on the line until we succeeded in worrying him nearly to the boat, when he rose to the surface and attacked us with open mouth. We repelled the attack with harpoon pole and rifle. The former was promptly bitten in three places, but the latter apparently finished him. It was so nearly dark that we decided to carry him in the skiff a mile down the river to where our sloop was anchored. We broke the seats out of the boat and together managed to lift the head of the alligator aboard and tie it. We then tied the other end, when the reptile came to life and landed a blow with his tail which lifted me out of the skiff into the saw grass, with the breath knocked out of my body and my hand and face badly cut by the grass.

Boat and boatmen were capsized. As my rifle had fortunately been left upon the bank, I was able to kill the alligator again. We secured him by floating the boat under him and then bailing it out. The alligator completely filled the boat, so that my companion and I sat upon his back as we paddled down the river with gunwales unpleasantly near the water.

It was growing dark, and the water around us was becoming alive with alligators. While we were reflecting upon our overloaded condition our alligator came to life again and shifted ballast until water poured over the gunwale. We quickly balanced the boat, only to see it again disturbed and to ship more water. A scramble for the shore followed, which we reached without capsizing and where we left our victim for the night after again killing him. In the morning our bursard friend from the Chesapeake Bay was sitting above him in the tree waiting for us to attend to our carving duties.—Country Life in America.

UNPLANTED CORN.

It Has a Habit of Getting Uneasy in the Spring.

"It beats all," said a Bergen county farmer, "what curious things we find in nature that we can't explain. You kin go over a lot of 'em, and there's yet one that you can't tell me why it is. That's corn heatin' up in the spring."

"You take a lot of corn. I don't care if it's whole corn or cracked corn or cornmeal. You keep it in any kind of storehouse—the common granary, like we have on the farms, or the stone or brick buildin', like many of the grocers and feed dealers have it in. When it comes corn plantin' time, that corn of yours 'll git uneasy. Soon's the blades start out of the ground, then you'll have to hustle to save your grain."

"Seems as when the time comes along for corn to be planted in the corn in the bags, no matter what shape it's in, begins to heat up, and when the planted corn begins to grow what you've got stored will git so hot it'll fairly smoke. You've got to take it out of the bags and spread it out so it'll cool off or you'll lose it all. In a few days it'll cool down again, and you won't have no more trouble with it durin' the summer, no matter how hot the weather gets. It's jest when the planted corn starts; that's all."

"Curious? Of course it's curious or I wouldn't speak of it. I might understand how whole corn would act that way, but when it comes to cracked corn and cornmeal then it's too much for me. And I'll bet you can't tell why it is, 'cept it's jest nature tryin' to assert herself."—New York Mail and Express.

Pekin Ducks.

Pekin ducks are probably the most valuable breed of ducks known today. They are very large, mature early and have white plumage. The ducklings hatch out stronger and seem to grow faster than the young of any other breed and can be raised anywhere that you can raise chickens. They feather rapidly and grow to good size in from six to eight weeks, which makes them well adapted for the early markets, allowing the highest prices. They are excellent foragers, excellent layers and with good range require but little food. The young are not subject to roup, cholera or gapes, like young turkeys and chickens. They will weigh from twelve to fourteen pounds per pair the first year without much fattening. As egg producers their record is equal to that of any other breed of fowls.—Commercial Poultry.

CAUSED A DEFICIENCY

Washington Editor Says of an Alleged Piece of Grafting on a Postal Device.

PROFIT ON IT WAS 100 PER CENT.

More of the Device Bought Than Could Be Used—Machen and Others Again Indicted.

Washington, June 23.—The Post says that among the matters which Fourth Assistant Postmaster General Bristow is investigating is the purchase from a California company, the Postal Device and Improvement company, of some 17,000 letter devices for indicating the hours of collection of mail. The invention is that of the postmaster at San Francisco. It is said. It is also said that 7,000 of these devices originally were ordered at a cost of \$4 or more each, or a profit of 100 per cent. on cost, and the allegation is made that a further order for 10,000 was placed notwithstanding the original 7,000 devices were not used, but were reposing in a storehouse.

Loud Pushed the scheme Personally. The company controlling the device was largely made up of California postal employees, and The Post says that it is informed that ex-Representative Loud, of California, formerly chairman of the house postoffice committee, took active part in their behalf and wrote several letters urging the device on the department, and in one of them said it would be an accommodation to him if the matter were attended to.

Had No Personal Interest.

After the company had difficulty in securing its money for the device Loud, The Post says, appeared at the department in its behalf, but specifically disclaimed any interest in the company other than that it was composed of his constituents. He took the ground that whatever the necessity or lack of necessity for the device, constituents of his had secured the contract and furnished the articles called for. Therefore, he believed they should be paid, as the government had stipulated to pay them. During his recent visit to this city, Loud, on certain of his visits to the department, took up some of those unpaid bills, making it plain, however, that he appeared only in behalf of constituents and not as one financially interested in the company.

Says It Caused a Deficit.

The allegation was made. The Post says, that \$45,000 of the deficiency of \$105,000 in the free delivery service with which Machen is charged was due to purchases of the device in question, but at the postoffice department this was denied, and the statement made that while the matter was under investigation, the department might have been reactionary and intended against the investigation. Complaints also had been made, it was stated, that at the instance of Loud the rolls at the Presidio had been padded with postal employees, but at the postoffice department they were without any knowledge of such a thing one way or the other.

SOME MORE INDICTMENTS FOUND

Machen, the Groffs and the Mr. and Mrs. Lorenz Are the Ones Involved.

Washington, June 23.—On the specific charge of conspiracy to defraud the government the grand jury, which has been investigating postal affairs, has returned an indictment against August W. Machen, Diller B. Groff, Samuel A. Groff, George E. Lorenz, and Martha J. Lorenz, the two latter being residents of Toledo, O. The counts are substantially the same as those in the first indictment found against Machen, and charge, briefly told, that Machen had a "rake off" in the price for which fasteners for mail boxes were sold to the government.

The Groff brothers and their counsel and the counsel for Machen were in court when the indictment was returned. Machen was not present. It was announced that neither Machen nor the Groffs would be rearrested, also that they would not be required to give a new bond.

A strong plea for James T. Metcalf, who recently was dismissed from the postoffice department, where for years he had been chief of the money order bureau, has been made to President Roosevelt by Director of the Mint Roberts, who has known Metcalf for a long time. Metcalf was dismissed for alleged interference in behalf of a certain bidder for the contract to print the money order blanks for the department. President Roosevelt was urged to obtain for Metcalf a reopening of the case.

Four Men Killed in a Wreck.

Jefferson City, Mo., June 23.—In a wreck of two Missouri Pacific freight trains which occurred at Cole Junction, five miles west of this city, four men were killed and one dangerously injured. The dead are: Fireman Mike Durall, B. Kemner William Atkinson and two unknown men, supposed to be tramps. Dangerously injured and will probably die: Engineer Michael Finegan of Jefferson City. One of the trains was laden with live stock as well as general merchandise and quite a number of cattle, horses and hogs were killed.

Civil Service Commissioner.

Washington, June 18.—Henry F. Greene of Duluth, Minn., has been appointed civil service commissioner to succeed Mr. Garfield. Mr. Greene is a lawyer.

MAJOR FOND IS DEAD

Operations Performed to Save His Life Proved More Than He Could Stand as His Age.

New York, June 22.—Major John B. Fond, the well-known lecturer and lecturer and singer, is dead. He was home in Jersey City at the time of the operation.

J. B. FOND.

an operation on June 17, in which his right leg was amputated. Major Fond, who had been ill for a month, two weeks ago underwent a slight operation, but the wound failed to heal satisfactorily and it finally became necessary to remove the leg.

It was announced at the time that the patient had withstood the shock well and that the surgeons were hopeful of his recovery. Major Fond was born at Cuba, N. Y., in 1838.

DARING BREAK FOR LIBERTY

Convicts in Colorado Prison Seize Warden's Wife, Dynamite Gels and Get Outside—Two Are Shot.

Canon City, Col., June 23.—One convict was shot and killed and another was fatally wounded by guards at the state penitentiary in an attempt to escape. At 8 o'clock a. m. a number of convicts overpowered the overseer and guards at the wash house, securing their keys. On the way to the front gate the convicts captured Mrs. Cleghorn, wife of the warden, and placed her in front of them. Reaching the front gate, they dynamited it and got outside, taking Mrs. Cleghorn with them. The warden instructed the guards to pick convicts off, taking care not to shoot Mrs. Cleghorn. When fifty yards from the prison Mrs. Cleghorn fainted and the convicts released her.

In the shooting, which was general from the guards, Convict Kuykendall (No. 5,385) was instantly killed. James Armstrong, the ringleader, was shot by Night Captain Clark, and will die. Tom Fisher was captured on the tank of the big ditch. Two other men are reported captured at some little distance from the prison, and two others are known to be gone, one of them wounded. They are on horseback, having stopped a wagon, cutting the horses loose, and escaping.

UNITED STATES AGREES TO SEE THAT THE WARSHIP CREDITORS ARE PROPERLY PROTECTED.

Richmond, Va., June 23.—In the chancery court Judge Grinnam dissolved the injunction restraining the United States government from taking possession of the cruiser Galveston. The federal government stipulates that the ship shall remain the property of the Trigg creditors until the case is determined by the court of highest resort. The Galveston will be launched this week.

Three Tugmen Drowned.

Buffalo, N. Y., June 23.—The Great Lakes tug O. W. Cheney was run down by the propeller Chemung about seven miles up the lake. Three members of the tug's crew were drowned, as follows: Captain John Whelan; Andy Shafer, steward; Eddie Dugan, fireman. The engineer, James T. Byers, and the other fireman, were picked up by the tug Frank S. Butler and brought to this city. The Cheney had gone up to the lake to meet the Chemung and tow her to port. As the tug neared the propeller and drew close to take the line she ran under the bow of the Chemung. The propeller's bow hit the tug amidship, capsizing and sinking it.

Negro Burned at the Stake.

Wilmington, Del., June 23.—A northern mob, led by a Virginian, burned a negro at the stake within a few miles of Mason and Dixon's line. The victim was George F. White, a negro just out of the workhouse, who was accused of having feloniously assaulted and stabbed to death Miss Helen S. Bishop, the 17-year-old daughter of Rev. E. A. Bishop. The crime was committed the afternoon of June 15, and ever since then there had been mutterings of mob law. An effort was made Sunday night to get White, but it failed.

Tillman Asks a Change of Venue.

Columbia, S. C., June 23.—Application for a change of venue for James H. Tillman, ex-lieutenant governor of this state, charged with the murder of N. G. Gonzales, editor of The State, in this city last January, has been begun here. In making their motion the defense alleged that there is a prejudice in this county against the accused.

Cardinal Vaughan Is Dead.

London, June 22.—The Very Rev. Herbert Vaughan, cardinal and archbishop of Westminster, died at midnight. Cardinal Vaughan was born April 15, 1832. He became archbishop of Westminster in 1892. He had been ill more than three months. Late in March it was thought he could not survive more than a few days.

Don't Cough
YOUR
Head Off
WHEN
Dr. Porter's Cough Syrup

Is so easily obtained and so quickly cures.

The right remedy for all diseases of Throat, Chest and Lungs. Acts on nature's plan—loosens the cough, relieves the lungs, opens the secretions, effects a cure.

HEARING OF CLAIMS.
STATE OF MICHIGAN,
COUNTY OF OTTAWA.
Notice is hereby given, that by an order of the Probate Court for the County of Ottawa, made on the 16th day of June, A. D. 1903, six months from that date were allowed for creditors to present their claims against the estate of Sus A. Martin, late of said County, deceased, and that all creditors of said deceased are required to present their claims to said Probate Court, at the Probate office, in the City of Grand Haven, for examination and allowance, on or before the 16th day of December next, and that such claims will be heard before said Court, on Wednesday, the 16th day of December next, at 10 o'clock in the forenoon of that day.
Dated at the City of Grand Haven, June 16th, A. D. 1903.
EDWARD P. KIRBY,
Judge of Probate.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mass., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not. If you have any trouble with your stomach why not take these Tablets and get well? For sale by W. C. Walsh, Holland; Van Bree & Son, Zeeland.

DUST SPRAYING.
Mixtures For Dusting From a Bag and For Use in Dust Sprayers.
Dust spraying is just now coming into greater prominence, and it certainly is often convenient to apply poisons in this manner. Dry paris green may be so used, either applied pure or adulterated with various substances. If used pure, it should be dusted from a cloth sack of suitable texture, and only the faintest trace of the poison should appear upon the plants treated. One or two pounds should be sufficient to treat any low growing crop. To avoid using dangerous and excessive amounts of the poison it is usual to adulterate it as follows: Paris green, one pound; wheat flour or finely slaked lime, twenty-five to fifty pounds. Mix the ingredients thoroughly and dust until the plants show a faint trace of white. For dusting only a few plants use a perforated tin can or other sifter. To cover a large acreage use one of the "dust sprayers" which are on the market.
The so called "dust spray" for orchard trees is prepared as follows: Paris green, one pound; quicklime, two pounds; water, three quarts. Use the water to slake the lime into a very fine dry powder, add the poison and mix thoroughly. This dust is blown into the air in a cloud by the use of dust sprayers and settles upon foliage and fruit.
Dust spraying is much cheaper than spraying with liquids, but results so far obtained indicate that it is less effective for most purposes. All dusting should be done early in the morning while the foliage is yet wet with dew.—A. B. Cordley, Oregon.

Making Bright, Sweet Clover Hay.
In regard to making clover hay a correspondent writes to Country Gentleman:
Here is my plan for practical use: Cut the clover when it shows perhaps two-thirds of its blossoms. Do not start the machine until 10 a. m., or until the dew has mostly dried out from the clover, and cut only so much as can be raked and cocked before 4 p. m. The first thing after noon turn while the clover is hot with the sun's rays, rake and cock in small sized cocks. If the crop is very heavy, of a large growth, I do not use the horse rake, but go in with a fork and pick it up and cock it up in this way; then, if you wish, run the horse rake over the ground and gather up any scatterings that may be left. If the weather bids fair, leave it in the cock for a day at least; then, about 11 a. m., open out enough for a load to be drawn the first thing after noon, opening enough for the second load just at the time of loading the load opened before noon, keeping only a load opened ahead of the team. If the sun is very war. I do not spread out thin, but simply break the cocks apart into two or three parts.
When drawing in put as much as possible at one drawing into the same mow. The less air to reach the mow the better. Keep the barn closed so as to avoid the rushing of air through the mow. Should rain come on after the clover is cocked up I go out each day and cock it all over, taking the top and using that for the base. This air it and prevents coloring or mold and does not allow the rain and sun to cause the leaves to drop off or the stem to become hard and brittle.
To commence the handling of clover, as I have practiced, is very much like the beginning of the use of a smoothing harrow or weeder. It takes lots of faith in other men's practices and considerable "sand," but like many other of the modern methods, it works like a charm.

Pickle Growing For Profit.
The raising of cucumbers for pickles has long been practiced by some farmers, but the past two or three years have brought some discouragement, owing to blight. That the crop is a profitable one to those who have the right conditions and know how to grow it is proved by the fact that some growers have continued in it for many years. One of the largest eastern Massachusetts growers has grown pickles for thirty years, and an accurate account which he has kept of different fruit and vegetable crops on his farm shows this to be the most profitable, says New England Homestead.
The crop last year was rather smaller than usual, and high prices of labor have made it less profitable than heretofore. Pickle manufacturers were confronted with the problem of getting more cucumbers, and in order to induce a larger acreage the price by some has been raised this year from \$1 to \$1.25 per 1,000. As the average yield in a good season on good land is 100,000 pickles per acre, the crops would be profitable at these figures. As many as 200,000 have been grown on one acre of land, but the conditions of weather and soil were exceptionally favorable.
Pickles run in size from 2½ to 4 inches in length. It used to be customary to throw out the larger ones, and they were a total loss to the grower, but these are now taken at reduced rates. It takes 1,200 medium pickles by count to fill a flour barrel, while 3,600 fine pickles will in the same measure.
One Thing and Another.
The Minnesota station has bred a new blue stem wheat which is said to yield three bushels per acre more than ordinary varieties.
Contrary to the experience of many, the Iowa experiment station claims good results from feeding soft corn.
The growing of macaroni wheat in western Nebraska promises to add a new and useful crop to the region.
Asparagus rust is reported in the California coast fields.
A big alfalfa boom is on in California.

MICHIGAN MATTERS
Items of General Interest to Our Own People Received by Telegraph.
STATE HAPPENINGS RECORDED
News of Michigan Prepared for the Benefit and Convenience of Our Readers.

Pontiac, Mich., June 22.—Elmer M. Voorheis, ex-proprietor of the Eagle saloon, and Joseph C. Dunn and Walter Knox, bondsmen, are again defendants in a damage suit brought by Attorneys Bond and Blakelee for Mrs. Ada L. Bowden. The damage asked is \$3,000. Mrs. Bowden begins suit as guardian for her three children who are all under 7. A short time ago Mrs. Bowden was awarded a verdict in another damage suit against Voorheis for \$1,000.

Claim Is the Same as the First.
The case has been appealed to the supreme court and the necessary records and briefs are now in the course of preparation. The claim for damages is the same as in the first suit. Mrs. Bowden alleges that Voorheis, who was then in the saloon business, sold her husband liquor from May 1, 1901, to July 1, 1902, after she had served written notice upon him forbidding such sale. Mrs. Bowden claims that the money he spent for liquor should have gone to the support of the family.

Indications of Degeneracy.
Pontiac, Mich., June 22.—Two more arrests have been made in connection with the warrant sworn out by Stephen A. Henderson, father of Clara Henderson, a 15-year-old girl who is said to have been abused. The boys arrested are Jerome Calkins and Colle Corigan, of Fenton. Both were bound over to the circuit court, and when examined before Justice Patterson, of Holly, were released on \$8,000 bail. This makes six arrested, one being a married man.

Just Cost Him One Hand.
Pontiac, Mich., June 22.—Michael McCauley, who lives on South Saginaw street, had his hand so severely crushed by a train that it had to be amputated. McCauley went to sleep beside the track resting one hand on the rail. Then a train came along.

WEDDING PARTY EMBARRASSED
Bride and Groom Before the Other When the Latter Finds the License Missing.

Menominee, Mich., June 22.—A rather amusing but very embarrassing incident took place at a wedding at Escanaba. The bride and groom had proceeded to the altar in the church where the ceremony was to occur. Everything, apparently, was ready for the happy event, but suddenly there was a pause in the proceedings. Then came a hurried whispered consultation and the assembled guests were amazed to see the bridal party leave the church without the ceremony being performed. The reason was soon forthcoming. The groom had forgotten to procure his marriage license. The wedding had been set to occur at 8 o'clock, but as the office of the county clerk did not open until an hour later, it was nearly 10 before the groom had secured the necessary document and the bridal party had again taken their places before the altar.

Dice of Threatening Murder.
Jackson, Mich., June 22.—While defending his wife and child from threats of murder at Munith, a small place near here, August Braun, the village hotel keeper, struck William McCrow, his former barkeeper, on the head with an iron bar, from the effects of which the latter died in a few minutes. It is said that McCrow had been drinking and was seeking revenge for dismissal some time ago. No action has been taken by the sheriff, although Braun says he is willing to give himself up.

He Attacks the Tax Law.
Menominee, Mich., June 19.—E. H. Eastman, attorney for the Wisconsin and Michigan railroad, has returned from Grand Rapids, where on behalf of the company he started an action in the United States court against the auditor general of Michigan to restrain him from collecting taxes levied on the railroad this year. Eastman attacks the validity of the Michigan ad valorem tax law.

Cooley Wanted to Wisconsin.
Ann Arbor, Mich., June 19.—Professor M. E. Cooley, of the engineering department of the University of Michigan, has been offered the deanship of the engineering school of the University of Wisconsin. The same offer was made him in 1898 while serving as a naval officer in the Spanish-American war.

Sells Lot of Louisiana Timber.
Menominee, Mich., June 20.—The Kirby-Carpenter Lumber company has closed a deal for the sale of 19,000 acres of timber land in Grand Rapids parish, La., to J. E. Beatty, E. W. Zimmerman, Paul Liss and D. F. Clark, of Alexandria, La. The consideration is \$400,000.

Scheme of a British Widow.
Detroit, June 20.—Mrs. P. Larkins, a British widow, who lost her home in the Transvaal as a result of the Boer war, is playing a street piano in Detroit in order to earn money with which to educate her children.

MISS HIMBURG'S MYSTERY
Impression Is Growing That the Young Woman Put the Acid on Her Own Face.
Lewiston, Mich., July 20.—Three days have passed and Minnie Himburg has not made another "confession" as to who marked her pretty face with carbolic acid. With each day the impression grows stronger that Miss Himburg put the acid on herself to annoy her successful rival, Mrs. Ell Wilkinson, who is now under arrest charged with the crime.
This theory seems to be supported by the fact that the stains on Miss Himburg's face are turning from a dark to a pink, making it evident that something else than carbolic acid had been used to create the big sensation. Since the stains on her face have been wearing off, Miss Himburg regrets that the matter was made public, and says that had her parents not forced her into it, she would never have said a word.

HE GOT THE WRONG BOTTLE
Citizen Who Will Be Careful Next Time He Is Asked to Have "Something."

Bear Lake, Mich., June 23.—There is a prominent business man in Arcadia who will be very careful about accepting invitations to drink hereafter. A well known lumber jobber who had just transacted some business with him asked him to take a drink, and he consented.

It happened that the jobber had two bottles in his pocket, one with a fearful mixture intended for a horse liniment, and he accidentally took out the wrong bottle. The business man took a drink, and, being surprised at the taste, he looked at the bottle and saw that it was labeled "Poison." A doctor was called and succeeded in pulling him through.

Milk Contains Disease Germs.
Alma, Mich., June 20.—Citizens of Alma are indignant over the condition in local dairies revealed by an investigation of the typhoid fever epidemic which has been raging here off and on for the last six months. Dr. Brooks, of Saginaw, analyzed samples of milk from the dairies and found that they contained colon bacillus. A white rat and a guinea pig inoculated with a preparation from some milk died in a few hours.

Opposed to Taxation of Credits.
Port Austin, Mich., June 20.—The address of President George E. Morley to the Michigan Bankers' association, in session at Point aux Barques, was on the state's taxation system. It was a careful study of a system which the speaker said was full of inconsistencies and inequalities which called for correction. He argued strongly for the non-taxation of credits.

Says He Is the Champion Fisherman.
Sault Ste. Marie, Mich., June 23.—Ebenzer Cook, of the Soo, claims to be the champion fisherman of the northern peninsula. He went down the river the other day and in five hours caught 432 perch and other fish that are to be found in the waters around Sugar Island. This is an average of about a fish a minute, but Cook fished with two lines.

Makes Them Suspect Crime.
Port Huron, Mich., June 22.—A gruesome find was made by George Campbell, one of the longshoremen engaged in unloading the coal from the steamer I. E. Olson at the electric light works. He discovered a human head, the flesh eaten away by acid or lime, in the forward hold. A crime in the coal fields during the strike is suspected.

Much Marring at the 'Varsity.
Ann Arbor, Mich., June 19.—Truly this is "Cupid's commencement" at the university, for never has such a deluge of wedding announcements, wedding invitations and engagements greeted the close of a college year as the month of June has brought forth this year. Neither is this confined to the students, for the professors participate.

Thought to Know Something.
Pontiac, Mich., June 23.—Herbert Dudley has again been arrested. It is thought that he knows something about the holding up of Stuart Seeley, a 12-year-old newsboy who was robbed of \$10.75 while peddling his papers. Dudley has already been arrested several times, and has served in the house of correction.

Phellis Wins the Flying Target Shoot.
Jackson, Mich., June 20.—The second and last day of the Michigan state shoot was largely attended and excellent scores were made. Of the 200 flying targets Phellis, of Mechanicsburg, O., scored 192, taking first money. Max Hensler, of Battle Creek, Mich., was second, with 184.

Deer Are Very Abundant.
Munising, Mich., June 22.—F. H. Hoard, who made a twenty-six-mile trip in a gasoline launch down the Sage and Taquemonen rivers reports that in that distance he saw and counted fifty-three deer. The country covered is the wildest in the upper peninsula.

Man Missing; So Is Some Money.
Rapid City, Mich., June 23.—Frank W. Bennaway, a well-known lumberman and treasurer of the local lodge of Odd Fellows, has disappeared. About \$250 of the lodge money and about \$350 belonging to Cameron & Co., of Central Lake, are alleged to be missing.

Wind Blows Down a Barn.
Tecumseh, Mich., June 22.—Part of the roof of the new barn on the farm of A. W. Mills was blown down and several workmen were injured. Roger Dunsenath had his collar bone broken and received serious internal and probably fatal injuries.

A Large Line
and selling at reduced prices.

JUNE 26, 1903.

COMMON COUNCIL.

Holland, Mich., June 25, 1903.

The common council met pursuant to call issued by the Mayor to receive reports of the committee on streets and crosswalks and the committee on claims and accounts, and was called to order by the Mayor.

Present: Mayor DeRoo, Ald's Kleis, DeVries, Geerlings, Nibbelink, Kramer, Van Putten, Postma and Kerkhof and the city clerk.

The committee on streets and crosswalks reported recommending the grading of Lake and Water streets and Van Raalte avenue north of 24th street, and presented diagram, plan, profile, specifications and estimate of cost of the work.

By Ald. Kleis.

[See resolution in notice in another column.—Ed.]

Said resolution prevailed by yeas and nays as follows:

Yeas: Ald's Kleis, DeVries, Geerlings, Kramer, Van Putten, Postma, Kerkhof.—8. Nays—0.

Said committee reported recommending the grading and graveling of Ninth street from the centre of Land street 750 feet eastward therefrom.

By Ald. Kleis.

[See resolution relative to grading and graveling of Ninth street in another column.—Ed.]

Said resolution prevailed by yeas and nays as follows:

Yeas: Ald's Kleis, DeVries, Nibbelink, Geerlings, Kramer, Van Putten, Postma, Kerkhof.—8. Nays—0.

By Ald. Kleis.

Resolved, that the clerk be instructed to advertise for bids for the grading of Lake and Water streets and Van Raalte avenue north of 24th street, and for the grading and graveling of East Ninth street, bids to be in July 14, 1903, at 7:30 o'clock p. m.—Carried.

The committee on claims and accounts reported recommending the allowance of claims of C. J. DeRoo of \$50.85 and \$37.25 special police service.

Adopted and warrants ordered issued.

By Ald. Kleis.

Resolved, that contractor Prange be required to give bonds to the amount of \$10,000 each with three or more sufficient sureties.—Carried.

Adjourned.

W. O. VAN EYCK, City Clerk.

SEALED PROPOSALS.

Sealed proposals will be received by the Common Council of the City of Holland, at the office of the City Clerk, till Tuesday, July 14, 1903, at 7:30 p. m., for the grading and graveling of East Ninth street from the centre of Land street to a point 750 feet east therefrom. Plans and specifications of the work are on file in the office of the city clerk.

The council reserves the right to reject any or all bids.

By order of the Common Council.

24-25 W. O. VAN EYCK, City Clerk.

Dated, Holland, Mich., June 26, 1903.

SEALED PROPOSALS.

Sealed proposals will be received by the Common Council of the City of Holland, at the office of the City Clerk, till Tuesday July 14, 1903, at 7:30 p. m., for the grading of parts of Lake, Water and Ninth streets and Van Raalte avenue north of Twenty-fourth street as per plans and specifications of the work on file in the office of the City Clerk.

The council reserves the right to reject any or all bids.

By order of the Common Council.

24-25 W. O. VAN EYCK, City Clerk.

Dated, Holland, Mich., June 26, 1903.

PROPOSED IMPROVEMENT OF EAST NINTH STREET SPECIAL STREET ASSESSMENT DISTRICT.

CLERK'S OFFICE.

Holland, Mich., June 26, 1903.

NOTICE IS HEREBY GIVEN, That the common council of the City of Holland has caused to be made and deposited with the City Clerk for examination, the profile, diagram, specifications, and estimate of cost of grading and graveling East Ninth street from the centre of Land street 750 feet eastward, pursuant to grade and profile to be adopted in connection with the proposed improvement.

That after the grade work is completed, a roadbed 24 feet wide through the centre and the whole length of said part of said East Ninth street be covered with gravel of the kind used on Fifteenth street, or of a quality equally as good as that used on Fifteenth street, to an average thickness of nine inches, so spread that when finished it will be 12 inches thick in the centre and six inches thick on the sides;

That the whole of the cost said expense of said work and improvement be defrayed by special assessment upon the lots and lands or parts of lots and lands abutting upon said part of said East Ninth street; provided, however, that the cost of improving street intersections on said part of said East Ninth street be assessed against the City of Holland and paid from the General fund of the City;

That the lots, lands and premises upon which said special assessment shall be levied shall include all the lands, lots and premises abutting upon said part of said street, also the street intersection where said East Ninth street intersects other streets; all of which said lots, lands and premises as herein set forth, to be designated and to constitute a special street district for the purpose of special assessment to defray the cost and expense of grading, graveling and otherwise improving said part of said East Ninth street in the manner hereinbefore set forth, said district to be known and designated as the "East Ninth street special street assessment district" in the City of Holland;

That on Tuesday, the fourteenth day of July, 1903, at 7:30 p. m., the common council will meet at their rooms to

consider any objections or suggestions that may be made in said assessment district, and to the improvement, estimates, plans and profile.

WILLIAM O. VAN EYCK, City Clerk.

PROPOSED IMPROVEMENT OF LAKE AND WATER STREETS AND VAN RAALTE AVENUE SPECIAL STREET ASSESSMENT DISTRICT.

NOTICE IS HEREBY GIVEN, That the common council of the City of Holland has caused to be made and deposited with the city clerk, for examination, the profile, diagram, specifications, and estimate of cost of the proposed grading of Lake street from an intersection of Eighth and Lake streets westward, of Water street from Lake street to Van Raalte avenue, of Van Raalte avenue north of Twenty-fourth street, and of Ninth street between Lake and Water streets, in the City of Holland, pursuant to grade and profile to be adopted by the common council in connection with the proposed improvement, and to be established on the basis of connecting with other streets; that the whole of the cost and expense of said work and improvement be defrayed by special assessment upon the lots and lands or parts of lots and lands, abutting on said parts of said streets, except where the G. R. & L. M. R. Ry. Co. has tracks on said streets, in which case said Railway Co. shall pay such proportion of said expense as the surface between the rails and said tracks of said railway and eight inches on the outside thereof shall bear to the entire surface improved, and provided, however, that the cost of improving street intersections on said part of said streets be assessed against the City of Holland and paid from the general fund of the city; that the lands, lots and premises upon which said special assessment shall be levied shall include all the private lots, lands and premises abutting on said parts of said streets in the City of Holland; also the street intersections where said streets intersect other streets; all of which lots, lands and premises are herein set forth, to be designated and declared to constitute a special assessment district for the purpose of special assessment, to defray the cost and expense of grading said parts of said streets in the manner hereinbefore set forth, said district to be known and designated as the "Lake and Water streets and Van Raalte avenue special street assessment district" in the City of Holland.

That said improvement was determined upon by the common council of the City of Holland June 25, 1903; that on Tuesday, July 14, 1903, at 7:30 o'clock p. m., the common council will meet at their rooms to consider any suggestions or objections that may be made to said assessment district, and to the improvement, estimate, plans and profile.

WM. O. VAN EYCK, City Clerk.

Holland, Mich., June 26, 1903. 24-26

CORRESPONDENCE.

HAMILTON.

Bulthuis & Co. are building an addition to their barn.

Brink & Hagelkamp are doing a good business these days.

We are having too much cold weather for farm crops in this locality.

The Crescent corner band gave a social on M. E. Camp's lawn on Tuesday evening. Ice cream was served to about 200 guests.

M. W. Palmer is nearly ready to manufacture best pullers.

Fanny Elzenaar is again able to resume her duties at Robinson's restaurant.

The Home Missionary Society met with Mrs. Theresa Taylor on Thursday afternoon.

Florence Wilson has gone to Grand Rapids to accept a position with her brother, Bert Wilson.

Geo. Gillies is packing his household goods for their removal to Iowa, their future home.

Mrs. H. Parker was in Holland Saturday.

Alice Van Heulen returned home from Allegan Saturday, where she, by faithful study, completed her education. Her many friends here will be glad to hear of her success.

Mrs. Cosner called on Jamestown friends Tuesday.

Wm. Vorst of Holland is the guest of his daughter, Mrs. M. E. Crandall.

Florence Kolvoord is home from Allegan high school for the summer.]

W. W. Warner of Allegan was here on legal business Friday pertaining to the settlement of the Ware estate.

H. Powers returned from Chicago Saturday morning.

C. Hayden of Zeeland spent Sunday with his aunt, Mrs. A. J. Klomprens.

Mr. and Mrs. B. G. Hills spent Sunday in Holland, the guest of E. Hakken.

Mrs. Parker is entertaining her parents, Mr. and Mrs. Knight of Tecumseh.

There will be a grand celebration here this year on July 4. The citizens have planned a glorious time for that day and we want all our neighbors to come and join us. The Monterey band will furnish music during the day and evening. There will be all kinds of games and contests, speaking, fireworks, etc. A balloon ascension by Prof. Morgan will take place at 7:30 p. m. Come and enjoy the day with us.

W. R. Stevenson the optician, will examine and test your eyes by the most scientific methods and fit you with the proper lenses to correct defects of vision. Examination free.

ZUTPHEN.

Born, to Mr. and Mrs. Henry Zwiers, a daughter.

Miss Sena Kamps of Zeeland was home for a few days the past week.

Misses Ella Beek and Elle Broek and Ed. Van Bronkhorst and Ed. Strick made a trip to the poor farm last Sunday.

The carpenters around here are very busy nowadays.

Our new creamery is nearly completed.

Mr. Black's little daughter is very ill at present.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, or summer complaint, if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

ZEELAND.

John Slabbekoorn of Grand Rapids was in town yesterday, shaking hands with old acquaintances.

Harm Brill has already completed 18,000 square feet of cement walk in town this spring and still has 25,000 feet contracted.

The De Free house recently purchased by C. Breen has been moved to west Cross street instead of McKinley street as stated last week and Mr. B. informs us that it will be occupied by himself and family after the necessary repairs have been made.—Record.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by W. C. Walsh, Holland; Van Bree & Son, Zeeland.

The Hygiene of Old Age.

We look upon the aged with good reason as having a slender hold upon life, one that may be loosened by a slight shock of injury or disease which, in the young or middle-aged, would serve only as a stimulus to the reparative vital powers. This is a conservative belief, but it warns us to shield our loved ones who have fought the fight, from all influences which might shorten their stay with us. But we must not go too far in our solicitude, for injury may be inflicted and life shortened by coddling the old, almost as surely as by coddling the young. The vital processes in the aged are slow, but they are still existent, and they may be kept active by gentle opposition and stimulation, just as they may be increased in childhood and youth by rough methods. Dr. Caldwell's Syrup Pepsin and Herb Laxative Compound is a boon to the aged and infirm and probably no medicine has accomplished so much, or received as high or as many endorsements from men and women whose extreme age gives them a seemingly slender hold upon life. Dr. Caldwell's Syrup Pepsin makes perfect digestion and acts gently upon the bowels in an easy and pleasant manner. Tones up the entire system and prolongs life. 50c and \$1 bottles at W. C. Walsh.

STATE OF MICHIGAN, COUNTY OF OTTAWA, ss. At a session of the Probate Court for the County of Ottawa, holden at the Probate Office, in the City of Grand Haven, in said county, on Wednesday, the 24th day of June, in the year one thousand nine hundred and three.

Present, Edward P. Kirby, Judge of Probate.

In the matter of the estate of Jan Riekus Beukema, deceased.

Albette Beukema having filed in said court her petition praying that a certain instrument in writing, purporting to be the last will and testament of said deceased, now on file in said court be admitted to probate, and that the administration of said estate be granted to Rense A. Hyms or Kommer Schaudeloe.

It is Ordered, That Monday the 30th day of July A. D. 1903, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order for three successive weeks previous to said day of hearing, in the Ottawa County Times, a paper printed and circulated in said county.

EDWARD P. KIRBY, Judge of Probate.

CORRESPONDENCE.

CRISP.

Our farmers appreciate the fine rains we have had this week.
On July 4 there will be a grand celebration here. The program will include all kinds of games and contests, music by the Crisp band, an address by Hon. Myron H. Walker of Grand Rapids, fireworks, etc. We cordially invite all our neighbors to come and celebrate with us.
The wheat crop will not be very large this year. Corn and sugar beets are also small yet.

Jacob Telen lost a horse last Monday, valued at about \$50.

W. Smit and wife of Grand Rapids visited relatives here.

Harm Arnoldink can be expected soon to visit the citizens of Crisp, New Holland and Holland to take subscriptions for "scheurkalenders" (calendars) for 1904. He also receives subscriptions for the Times.

The roads are not in very fine shape at present owing to the work which has been done on them lately.

Chamberlain's Stomach and Liver Tablets are just what you need when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by W. C. Walsh, Holland; Van Bree & Son, Zeeland.

NOORDELOOS.

J. Meyerling is sinking a well. Ed. Reinink of Graafschap is doing the work.

The new barn which was recently built for the C. R. church was completed last week.

The sale of the store of John Meyerling to John and Joe Westrate was no go. The stock was too heavy.

Paul Trick and Peter Scheel of Kalamazoo visited Mr. and Mrs. C. D. Schilleman last week.

The rain of Monday was taken in by all our farmers.

Are we soon to have a wedding? Boys watch the bridge.

Our school board has hired B. Mulder of Zeeland to teach our school for the coming year as principal.

Right Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beal of Beal, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by W. C. Walsh, druggist. Price 50c, and \$1.00. Trial bottles 10c.

NEW HOLLAND.

The Hon. M. H. Walker of Grand Rapids has been secured to deliver the Fourth of July oration at Crisp. Everybody should turn out to hear the able orator.

The school exhibition given at the New Holland school was largely attended. In the afternoon a picnic was given and the school house was crowded. The evening exercises were held out doors. It is estimated that about 1,000 persons were present. The East Holland band furnished the music.

Albert Bos, an old resident, died last Monday night after a lingering illness, at the age of 68 years. The funeral services were held last Thursday at the residence and at 1 o'clock at the Reformed church, Rev. A. Strabbing officiating.

Isaac Houting is nursing an injured knee.

The New Holland singing school held their last meeting last Monday evening. They presented their teacher, J. Weersing, with a fine set of Holland books as an appreciation of his work. Plenty of refreshments were served.

Everybody in the surrounding country should turn out and listen to the program which will be given at Crisp July 4th.

Frank Brouwer who bought the old parsonage, at Crisp, is busy moving it onto his farm.

The recent rains have improved the growing crops and prospects are very bright at present. Hay may not be as large a crop as last year, but will be an average crop.

Cuts, Bruises and Burns Quickly Healed.

Chamberlain's Pain Balm is an anti-septic liniment, and when applied to cuts, bruises and burns, causes them to heal without maturation and much more quickly than by the usual treatment. For sale by W. C. Walsh, Holland; Van Bree & Son, Zeeland.

OTTAWA STATION.

Mrs. F. C. Pixley and her stepdaughter Mrs. Ed. McCario, went to Chicago last Tuesday for a week's sojourn with a sister of Mrs. McCario.

John C. Robert of Olive took dinner at Eugene Fellows' last Tuesday. He is the highway commissioner of Olive township.

The first part of June has been very cold and dry, but last week it com-

mented to rain and we have got plenty at present, but it still continues to keep cold. Grain is looking good, so are early potatoes, but we have never seen corn so small this time of the year. It is supposed to be knee high the 4th of July, but it will fall quite short of that standard this year. Haying has commenced with some farmers, but hay is generally light, only about half a crop.
Ford Balcom of Grand Rapids was the guest of Mr. and Mrs. R. Meiers, his uncle and aunt, last Sunday.

Levi Fellows has bought a new threshing outfit. He will be ready to do business when grain is ready.

Mr. and Mrs. James Price and children of Holland were the guests of Mr. and Mrs. Eugene Fellows Sunday.

Miss Maria Fellows, who has been away on a two weeks' visit, came home Thursday.

A party from here went to Macatawa Bay Saturday night fishing for white bass, but they have been very quiet since, so we should judge the catch was not very large.

The Banner creamery is putting out between three and four hundred pounds of butter daily, No. 1 quality.

F. C. Pixley went to Bangor last Friday to hold a meeting and returned home Monday.

Quite a number of relatives and friends of Alford Purchase went to Georgetown last Friday to attend his funeral. He went from here this spring.

A Costly Mistake.

Blunders are sometimes very expensive. Occasionally life itself is the price of a mistake, but you'll never be wrong if you take Dr. King's New Life Pills for Dyspepsia, Dizziness, Headache, Liver or Bowel troubles. They are gentle yet thorough. 25c, at W. C. Walsh's drug store.

VRIESLAND.

Annie Dunnink, aged 6 years, died after a very short illness, June 14. The funeral was held from the house, Rev. G. De Jonge conducting the services. Many relatives and friends were present to show their sympathy with the bereaved family. The pupils and teacher of the primary department of the school also attended.

Mr. and Mrs. G. Rooks visited the latter's father, S. Hofma, Sunday.

Miss Ida Tanis spent Sunday at Grand Rapids.

Mrs. R. Leestma attended the Rooks-Hofma wedding at this place last week Wednesday.

C. De Boer left for his home at Grand Haven last week Wednesday.

The grammar department of our school closed last week Tuesday with appropriate exercises by the 8th grade in the evening at the town hall, which had been prettily decorated for the occasion. The hall was not large enough to accommodate the many friends who had come to attend the exercises. The program prepared consisted of music, both vocal and instrumental, essays, the salutatory, the class history, the valedictory, remarks by C. De Boer, principal, and an address by Rev. G. De Jonge. All who participated in the program did well their part and the evening passed most successfully. The pupils who took the 8th grade examination had not yet been apprised of the result, therefore the diplomas could not be presented at this time. The following Friday Gertie Van Noord, Hattie Meenge, Johanna Van Zoeren, Jennie De Jonge, George De Groot, Jake Verduin and Bert Van Haltsma received the information that they were successful at the examination, and that their diplomas would be forwarded in a few days. Congratulations. The primary department closes June 29, and a school picnic will be held on June 30.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

EAST HOLLAND.

Last week the correspondent made an error, namely, that Derk Nies started an orchestra and is leader of it. This is not so. It is organized by some of the young people of May and East Holland and the school teacher of East Holland, Jake Weersing is president of the organization and John Etterbeek is leader for the present. They are progressing nicely.

Rev. Dr. H. E. Dosker will preach at Ebenezer on Sunday, June 28.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

HARLEM.

The patrons of the Harlem creamery are well pleased with their new enterprise and they should be congratulated for having one of the newest, modern creameries in this vicinity. They are making 400 pounds of butter per day and find a ready sale for it.

The farmers are all wearing a smile, caused by the copious rainfall the past few days. The prospects for a corn and sugar beet crop look encouraging.

Scald head is an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

Satisfactory Outing Suits

Summer clothing has always been wanting in fit and permanency of style.

Linings and tailorings were sacrificed to coolness, and a man obtained comfort at the cost of appearances.

We offer our customers thin, cool, comfortable clothes that fit as perfectly as regular full-line garments and retain their shape.

The suit is light and cool—the coat weighing but 22 ounces. The trousers have permanent cuffs to turn up at the bottom and loops at the waistband for belt. The materials are light flannel and summer outing cloths.

Each suit pattern is twice sponged and shrunk before it is cut and guaranteed not to shrink after it is made up.

Hay For Sale.

Three acres of timothy hay on land for sale, cheap. Enquire of Louis Hoffert, 35 West 26th street.

PUBLIC SALE.

On Friday, July 3rd, 1903, at 10 a. m. there will be held public sale at the farm of Leonard Reus, at Noordeloos, of 40 acres timothy, grass and clover, which will be sold in parcels of 5 acres, also a cow and heifer, both to freshen the latter part of July, and 1 yearling heifer. Time will be given without interest till Dec. 1, 1903; 4 per cent discount for cash.

CHRIS. D. SCHILLEMAN,
Auctioneer.

NOTICE:

Notice is hereby given that on Thursday, the second day of July, 1903, at 12 o'clock p. m., at the Van Rante bridge, Sec. 34-35, the following jobs will be let: Graveling said line. Also a gravel job will be let for the so-called Yonker's bridge, near the city limits. I also want to hire five or six teams for a week or longer, and some hand work to fill in said bridge or dam. The old bridge will be sold at the time.

GERRIT ROOKS,
Comm'r. of Highways Holland Township.

Don't Overlook This.

A Careful Perusal will Prove its Value to every Holland Reader.

The average man is a doubter, and there is little wonder that this is so. Misrepresentations make people skeptics. Nowadays the public ask for better evidence than the testimony of strangers. Here is proof which should convince every Holland reader.

Mrs. E. Mulder, living 5 miles east of Holland, near Ebenezer, says: "I suffered for years from a deranged condition of the kidneys. The secretions from those organs were irregular and unnatural. I could not rest comfortably at night and arose in the morning feeling tired and unrefreshed. The least cold or a strain always aggravated the constant heaving aching pains through the small of my back. Doan's Kidney Pills were so highly recommended that I procured a box at J. O. Doesburg's drug store and used them. I felt better after a few doses and in a short time I was entirely rid of the trouble."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name, Doan's and take no substitute. For sale at J. O. Doesburg's Drug Store.

A SQUAB PLANT.

The First of its Kind Established in the State of Missouri.

H. C. Fairbanks and D. W. Pratt, two St. Louisans, have purchased a tract of land at Pacific, Mo., a small town thirty-seven miles west of St. Louis, for the purpose of establishing a squab and poultry farm. The raising of squabs for the market is a new industry in Missouri and promises to be a lucrative field.

The owners of the Hillside Squab and Poultry farm have entered into the business with the determination of making it the finest farm of the kind in the world. The entire management of the farm is in the hands of Mr. Fairbanks, who has a thorough knowledge of breeding pigeons and poultry.

With this end in view two pigeon houses fourteen feet high, thirty-two feet long and sixteen feet wide have been built, and eight more are under construction. In the interior and around the walls the nesting boxes are built, each one numbered, so that a record can be kept. Two nests are allotted to each pair of birds.

In one nest is placed a "nappy," or earthenware bowl about nine inches in diameter and about two and a half inches deep, in which the eggs are laid. The other nest is reserved for the young squabs until they are marketable or able to take care of themselves.

Around and over the breeding house is built the flying pen, extending sixteen feet on all sides. In this are placed automatic feeding boxes and water troughs. A pigeon house of this size will accommodate eighty-six pairs of birds. There are about 400 on the farm at present. It is estimated that from one pair of pigeons twenty-two squabs are hatched each year.

From the time the eggs are laid, two being the number, they are constantly covered, the male bird performing a share of this service, until the squabs are hatched.

Here is a calculation showing how it is possible for pigeons to multiply: Starting with 12 pairs of birds at the end of the first month, 24 squabs were hatched; second month, 48 squabs hatched; third month, 72 squabs hatched; fourth month, 96 squabs hatched; fifth month, 120 squabs hatched. At this time the first month's squabs were old enough to mate. Sixth month, 168 squabs hatched; seventh month, 240 squabs hatched; eighth month, 336 squabs hatched; ninth month, 456 squabs hatched; tenth month, 600 squabs hatched; eleventh month, 768 squabs hatched; twelfth month, 960 squabs hatched.—St. Louis Post-Dispatch.

Care of Young Chicks.

To prevent droopy chicks set hens in clean nests in a clean apartment. Dust the hen well with insect powder after she has set a week. Grease the head of each chick as soon as hatched with sweet oil or lard, and no danger from head lice need be feared. Put the hens with chicks in a clean box or house. A new barrel under a bush is much better than an old box or coop that has a suspicion of mites or lice. Feed often, just as they will eat; don't leave any to sour. If milk is fed, use it warm to mix meal or soften bread or cracker. Milk, sweet or sour, is not good for food for hungry chicks, as they gorge themselves and soil their plumage with it. When used constantly like water for a drink it is good. Slop of any kind is not fit food for fowls. The very best food for young chicks for the first week is bread crumbs, corn bread, oatmeal and cooked potatoes, all dry, not wet. Feed often and let them have a grass run when dry. After the first week mixed meal and table scraps may be fed. As soon as whole wheat and broken corn can be handled by them feed this at night. A variety of food is good. Always remember the gizzard is not intended to grind slop, and you will have healthy fowls.—Commercial Poultry.

Turkeys in Texas.

An open shed to roost in in severe winter weather is as much confinement as turkeys should ever be subjected to. In fact, it is doubted whether in this latitude even that much protection is beneficial. All turkey raisers will agree that roosting in a house at any time in the year is injurious. Young turkeys confined as chickens should be are almost certain to contract roup or some other catarrhal ailment, and such diseases are generally fatal. Turkeys with ample range, with good forest trees to roost among, are rarely subject to any disease. Natural conditions are best. Chickens have been domesticated for so many centuries that their natural requirements have been abolished, but not so with turkeys. The clover nature can be imitated the better for these birds.—Dallas Farm and Ranch.

Bread and Milk For Chicks.

Mr. Charles A. Cyphers, who has made many experiments in the feeding of little chicks, writes as follows: "Without an exception bread and sweet milk make the best food for a day or two if not for the first two weeks. At the time of exclusion the crop, gizzard and intestines are filled with uric acid and other excretions, of which they should be cleaned. I have fed on nearly every food usually employed and killed and dissected by the third day over 100 chicks. Of all the foods experimented with bread softened with sweet milk clears the crop, gizzard and starts the chicks growing the quickest."

Start With Good Birds.

A few extra good birds for the foundation stock is far better than twice the same number of ordinary ones. A good beginning is the "short cut" to success. Life is too short to breed from inferior birds. It may be cheap at the beginning, but expensive in the end.—American Poultry Advocate.

His Last Hope Realized.

[From the Sentinel, Gabo, Mont.]

In the first opening of Oklahoma to settlers in 1899, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by W. C. Walsh, Holland; Van Bree & Son, Zeeland.

OFFICE FOR REGICIDES

Men Prominent in the Murder of a King and Queen Are Promoted.

POSTS ARE CLOSE TO THE NEW KING

Servian Foreign Minister Indignant That Great Britain Will Suspend Relations.

Belgrade, June 22.—The promotions are announced of various members of the military deputation to King Peter at Geneva. Colonel Popovics, of the late King Alexander's palace guard, is created a general and first aide-de-camp to King Peter; Captain Kostics, who opened the palace gates for the assassins of the late king and queen, is promoted to be a major, and Lieutenant Gronlen, who was on guard outside the palace on the night of the assassinations, and who was a confidant of the conspirators, is made a captain.

Kalievics Indignant at England.
In spite of these appointments the foreign minister, M. Kalievics, in an interview, expressed intense indignation at the announcement from London that the British minister had been instructed to withdraw from Belgrade for some time on the arrival here of King Peter. Kalievics' statement was made carefully for publication, and may be regarded as an official expression of the view of the government. The minister said: "It is with deep indignation that we find in a recent telegram from London an indication that it is intended to hold the present government responsible for the deplorable events which occurred on the sanguinary night of June 11 in the royal palace."

Deprecates the Queen's Murder.
"It is known that the events of that night were carried out by Servian officers who had resolved to prevent the probable proclamation of the brother of Queen Draga as the successor to the throne. The fact that a woman was among those who perished in the struggle provoked by the attack of an aide-de-camp upon officers is regrettable; more so, as her death was by no means necessary, even though she had been detected by the whole Servian people from the moment she presumed to place the crown upon her unworthy head."

Servians Condone the Crime.
"The upheaval of June 11 was the work of a large number of officers. The consequences of the revolution, however, were sanctioned by the whole army and the whole people. With regard to the members of the provisional government, who were called upon at a most critical moment to take the reins of government in the absence of all other authority, they only proved their patriotism and personal courage by accepting so delicate a mission."

HOLOCAUST IN CHINA

Temple Burns and of Those Worshipping 150 Are Killed or Burned to Death.

Victoria, B. C., June 22.—Advices from Shanghai tell of the burning of a temple at Ping Tu involving the loss of 150 lives. A large throng gathered to worship, and burned paper and incense by the wholesale.

This resulted in the temple taking fire near the stairway, cutting off the escape of the people. Many jumped from windows and were killed, others were crushed to death by the crowds.

President Removes a Judge.

Washington, June 23.—President Roosevelt, after a conference with Attorney General Knox, signed an order removing Judge Daniel H. McMillan of the supreme court of New Mexico on charges of general immorality. Judge McMillan originally was appointed to the position from Buffalo, N. Y. Judge Clement C. Smith of Hastings, Mich., has been appointed to succeed him.

Schooner Lost Near Hatteras.

Norfolk, Va., June 23.—The four-masted schooner Lucy H. Russell, light, from Boston to Brunswick, Ga., went ashore at Gull shoals, twelve miles north of Cape Hatteras, and will be a total wreck. The crew, consisting of the captain and ten men, were rescued by life-savers.

Prominent New York Man Dead.

New York, June 23.—Daniel Judson Holden, a member of the law firm of Curtis Bros., is dead at his home at this city. He was stricken very suddenly. Mr. Holden was a member of many leading clubs and an official of several large southwestern development companies.

Fourteen Hurt by an Explosion.

Tamaqua, Pa., June 23.—By an explosion of gas in the No. 4 mine of the Lehigh Coal and Navigation company fourteen men were so badly burned that it is thought six of them will die. Daniel Lewis, a miner, has succumbed to his injuries.

Pope Wants the Truth Known.

Berlin, June 22.—A dispatch to The Cologne Volks Zeitung from Rome announces that the pope said to a representative of that paper: "You have seen how well I am. Tell this to those who have spread false reports regarding my health."

Dewey's Case Set for July 6.

Topeka, Kan., June 23.—The habeas corpus proceedings instituted by Charney Dewey and his men, charged with the murder of the Berry family, will be heard by the supreme court on July 6.

NO VERDICT REACHED

Jury in the Jett-White Case in Kentucky Unable to Come to Any Agreement.

Jackson, Ky., June 20.—The jury in the Jett-White case reported to Judge Redwine at 9 o'clock in the morning that it was impossible to agree upon a verdict and were discharged.

The dominant faction evidently expected acquittal, but there was at least one juror who would not so report. Judge Redwine has decided to transfer the Jett-White case to Cynthiana for the next trial.

The scene after the announcement was in no wise exciting. Some started to clap hands, but were stopped by the guards. The guards took immediate possession of the prisoners, and they were closely guarded back to jail. People gathered around the court house in knots discussing the case, but there was no disturbances nor outward sign of trouble. Jett and White are to be watched closely to prevent any sort of communication. It is feared there will be an attempt made to either rescue the prisoners or to dispose of them, but this is practically impossible on account of the guards. Major Allen has the situation well in hand.

STRIKE IS SAID TO BE PAST

Waiters and Cooks at Chicago Are Reported To Be All Back at Their Work.

Chicago, June 20.—The strike of the waiters and cooks is a thing of the past, and the majority of the men returned to work today. The settlement of the trouble was reached after a meeting which had lasted for the greater part of the day. It was agreed that 75 per cent. of the strikers shall resume their old places, and the remainder are to have their positions within ten days.

On the question of absolute recognition of the union the hotel and restaurant proprietors are to have the right to employ what help they choose, no matter whether it belongs to the union or not. The employees have the right to join the union or remain out of it, as they choose, and there is to be no discrimination against either union or the non-union men. The question of an increase in wages was left open for settlement by arbitration probably.

SEEK WAY TO CHECK FLOODS

Legislative Representatives from Affected Regions Meet in East St. Louis for Conference.

East St. Louis, Ill., June 23.—The senators and representatives of the Forty-fourth, Forty-ninth and Forty-seventh senatorial districts met in the city hall here to confer with the mayors of Granite City, Madison, Alton, East St. Louis, and Venice to consider what will be the most feasible plan to protect those cities and the adjacent territory from floods.

Representative Troutman and Mayor Elias Cook of East St. Louis have sought the assistance of the mayors of the cities in the recently inundated districts. As state help would be the only way out of the trouble, they deemed it proper that the representatives and senators of these districts be called into the conference and asked their opinions.

EDITORS CHANGE THEIR TONE

Which Bodes Ill for Servia as It Means the Revival of Party Intrigues.

Belgrade, June 23.—A remarkable change is occurring in the tone of some of the papers. The Narod Nilst urges the people not to participate in the rejoicings on the occasion of King Peter's arrival and suggests instead that the people should mourn the late king who fell a victim to political complications.

Another journal reproaches the Servians with slandering their dead king, whom they once pretended to adore. These expressions are taken to indicate the revival of party intrigues, heretofore suppressed by the military terrorism.

Ziegler Polar Expedition Sails.

Trondhjem, Norway, June 23.—The Ziegler polar expedition has sailed on the steam whaler America for Franz Josef Land, where the America will pass the winter, and whence expeditions will be sent out with dogs sledges. Material for the construction of winter quarters was taken on board the steamer. All the members of the expedition were in good health and spirits.

American Warships at Kiel.

Kiel, June 23.—The United States European squadron, Rear Admiral Cotton in command, was reached its anchorage opposite the yacht clubhouse. The fleet commanded by Admiral Prince Henry of Prussia, consisting of eight battleships and six cruisers, saluted the American vessels and the band of the German flagship played "America."

Died of His Injuries.

Indianapolis, June 23.—William Zimmerman, the young man who fell while attempting to loop the loop on roller skates before an audience in the Cyclorama building last Thursday afternoon, is dead. Zimmerman's skull was fractured and there was no hope at any time that he would survive. The coroner will investigate.

Killed After a Long Fight.

Virginia, Ill., June 23.—Peter Hiles was killed by James Morgan at Chandleville as the result of a feud of ten years' standing. Hiles struck Morgan with a beer bottle and the fatal shot followed.

YOUNG CHICKS.

Some Points For the Farmer on Feeding and Care.

Don't be in a hurry to feed the newly hatched chicks, no matter if they hatch rather unevenly. The ones first out will be all right for a couple of days at least. Their systems are full of yolk for some time, and too early feeding does harm rather than good. Have a little fine grit where they can find it as soon as they like.

Bread crumbs soaked in milk are good for a start, but it is best to give them a scratching food after a day or two. Millet seed or coarse oatmeal scattered in gravel is a good food. They can be successfully raised with nothing but fine, dry grain; no soft food. But most growers prefer to give some soft food for variety. Unless there is plenty of grit it will be necessary to use soft food for the reason that coarse grain cannot be properly digested without plenty of grinding material.

Young chickens in coops or where the hen is confined do not usually get enough animal food. It is their natural reliance, even more than grain, and nothing else will make them grow so fast. Milk not too old is the best form, but if enough cannot be had fine meat scraps will be good and are convenient to use. Feed with every meal. Hardly one farm flock in ten gets enough animal food to keep it growing at full speed.

The chickens should have time to get hungry. Don't have food where they can stuff themselves whenever they like and mope the rest of the time. Feed nearly but not quite all they can eat at a time and at regular hours. Poultry specialists feed often, but on a farm in summer it is difficult to feed more than three times a day, and chickens will do very well on three meals, if at regular times, each day.

If the coops are on grass sward and moved daily a shallow box of sand should be kept inside. A little trough for each coop is a great saver of the soft food, and a chick fountain is a convenience. If saucers and tins are used a shingle float with a hole in the center will keep the chickens out of the liquid.—G. B. Fiske in American Cultivator.

Beginning With Pigeons.

In answer to the question, "How should I begin squab raising?" the pigeon editor of the Feather says:

My advice is first build a neat house, say 10 by 12 feet, setting it up on brick piers about a foot from the ground, so as to avoid all danger from rats. Make the fly of wire netting 8 feet high, 10 by 14 feet. This will accommodate twenty-five pairs of birds. Make nests inside the house a foot square and nine inches high, having the bottoms removable for cleaning out. Keep sand on the floor about a quarter of an inch thick, and use a cheese box lid to feed out of and get a two gallon stone fountain for drinking water, a small box for salt, one for oyster shells and one for charcoal. Level the ground within the fly, and cover about four inches deep with clean, gritty sand—not gravel full of stones, but good sand. You are now ready to get birds. Get some one who knows how to purchase your stock—first class Homers, if possible—from some reliable breeder. Start with, say, five pairs of birds that are surely known to be mated, and study these birds until you become acquainted with them and have successfully raised several pairs of squabs, then add five or ten more pairs of birds as you prefer, but do not put any new birds in the house or fly until they are surely mated.

The Mooted Moisture Question.

The question has often been asked me, "Would you recommend putting eggs into warm water to make it easier for chicks to break the shell?" and, "Would you advise one to use moisture in an incubator?" To the first question I would say never put water on eggs under a hen, writes a correspondent of Rural New Yorker. Study the habits of birds and hens, and you will see why. The hen always leaves the nest some time in the day, usually in the early morning, when the air is cool and moist. The eggs are heated up to 103 to 104 degrees, and when the cool, moist morning air strikes the warm eggs it deposits moisture on them. This moisture the shells sufficiently without any additional moisture. In an incubator, however, the eggs do not receive enough moisture from the atmosphere, and so more moisture should be given to secure the best results. At least I have always found it so.

Mites Liked the Tobacco.

Our experience does not confirm the opinion of the many poultry writers who recommend tobacco powder or tobacco stems in nests to keep insect parasites away, especially chicken mites. Some years ago, having an unsalable crop of tobacco on hand, we made all their nests of tobacco leaves, satisfied that we would thereby exterminate mites. The result was the worst attack from these pests we ever suffered. They swarmed among the tobacco leaves by thousands. This tobacco was very strong Connecticut seed leaf and was cured a deep, dark brown; but it seemed that the stronger it was the better the mites liked it as a home.—Farm and Ranch.

Chickens Entered the Ministry.

In an Ohio town the African Methodist Episcopal church of that district held a conference, and for a week the town was filled with colored pulpit orators. A few days after the conference closed its session one of the leading women of the town drove out to Pea Ridge to purchase chickens of an old mammy who had supplied the family for years. Aunt Hannah, coming to the gate, said: "I'm sorry, Miss Allie, I ain't got a chicken left. Day all done enter de ministry."—Exchange.

For Current Worms.

Among the pests that go for the current bushes few are more destructive than the well known greenish white currant worm. Use paris green not once, but persistently until the currants are one-eighth of an inch in diameter and then hellebore, both in water, about one tablespoonful to the gallon of water. This pest comes on early and feeds and grows rapidly. In about ten days' time from hatching it is ready to go into the ground, and a second brood comes out, so that an early application is more effective. Spray with the bordeaux mixture and paris green until the berries are one-eighth of an inch in diameter and do not use the bordeaux mixture again until the fruit is gathered, because it would adhere to the bunches and injure their sale. The use of paris green is not advised generally, as hellebore is nearly as effective. The foregoing is the advice of Professor S. J. Maynard.

For Potato Scab.

For potato scab, corrosive sublimate, one ounce; water, seven to eight gallons. This is valuable as a preventive of potato scab. In a wooden vessel dissolve the poison in one gallon of water, then dilute to the full amount. Place the scabby seed potatoes in a sack, immerse them in the solution and allow them to soak one to two hours. The solution and the treated potatoes are extremely poisonous.

Formalin, a 40 per cent solution of formaldehyde gas in water, is being used extensively as a preventive of potato scab and of the grain smuts and gives most excellent results. It is cheap, efficient and nonpoisonous. For potato scab soak the seed two hours in the following solution: Formalin, one-half pint; water, fifteen gallons. For grain smuts soak the seed for one to two hours in the following: Formalin, one pint; water, fifty gallons.

Use Boiled Eggs Sparingly.

Hard boiled eggs mixed with bread crumbs, one half of each, is very good for one feed a day, say every other day for the first week. But too much boiled egg is not good for them, and an entire diet of hard boiled eggs would soon kill a great many of the little chicks.

Wheat For Eggs.

Wheat contains a larger per cent of albumen than any other grain and for this reason is one of the best grains to feed for egg production. It should not be made an exclusive ration, however.—Commercial Poultry.

Look Out For the Lamp.

See to it that your lamp is always full of oil, properly trimmed and burning. Do not neglect the lamp and allow it to go out or smoke the brooder. Once a day the lamp should be put in proper condition for its work. While it is quite necessary for the chicks to be kept warm they should not be too warm, nor yet be chilled. For the youngsters 90 degrees is about right when they are inside, and we must remember that an empty brover at 90 degrees will soon go to 100 degrees with fifty chicks inside. Too much heat makes bowel trouble, as will cold or damp or careless feeding. All of these help to swell the mortality list and increase the average cost of those we grow to maturity.—Feather.

Green Food Daily.

A flock of chicks kept during the day in a yard that has become denuded of herbage, no matter how eager they are for their supper, if they can have a run on a grass field will leave their food and run and eagerly nip the tender shoots of grass and clover. This fact proclaims the importance of always including green food in the daily diet.

The Blues

is one signal which foretells physical decay. Another is pale lifeless skin. The muscles shrink and become flabby; the body becomes emaciated, and there is an early tendency to round shoulders. The step lacks elasticity, the nerves become weak; mental and physical activity are a burden.

This condition is called Nervous Debility; it is cured by the use of

Sexine Pills

They feed the hungry nerves, revive the weakened organs and make life brighter and sweeter to any man or woman who has suffered from physical drains.

\$1.00 per box; 6 boxes (with legal guarantee to cure or refund the money), \$5.00. Book free. PEAL MEDICINE CO., Cleveland, Ohio.

Sold by W. C. Walsh, Druggist, Holland.

Fertilizer.

Farmers in need of fertilizer should call on B. J. Albers at Overisel. He will handle the Northwestern and the Darlington Co's. brands.

Farm For Sale.

An 18 acre fruit farm located half a mile south of the Holland depot for sale. Contains 100 cherry trees, 100 plum trees, 100 peach trees, 3 acres raspberries, half an acre currants, strawberry patch, 100 apple and pear trees. For particulars enquire at this office.

FARM FOR SALE.

An 80 acre farm in Monterey, great farm for stock, about 45 acres of low land. A large 10-room house and small barn. For particulars address

LOCALISMS.

The county jail can boast of only four prisoners at present.

White bass have been biting quite freely several evenings lately.

The Citizens' Telephone company has completed its line to Ottawa Beach.

Mrs. Wm. Swift and Mrs. D. S. Snyder held a reception at K. of P. hall Friday.

Henry and Charles Harmon caught a catfish a few days ago weighing 22 pounds.

The steamer Argo brought over on her first trip from Chicago Monday, 190 passengers.

The Walcott band of Graafschap gave a fine excursion on the steamer Post Boy last night.

The big well at the Nineteenth street station furnishes about a million gallons of water a day.

The Royal Arcanum held a business meeting last night at the art gallery of Wm. D. Hopkins.

M. Jonkman has bought four lots on West Seventeenth street, of City Attorney Geo. E. Kollen.

Rev. Mr. Conklin of New York delivered an interesting lecture on "Japan" at Hope church last night.

Jacob Rokus of Borculo has bought a residence on Central avenue of Marjille & Kooyers, the real estate dealers.

The steamer Post Boy makes a run to Macatawa Park each evening, leaving the Chicago boat dock at 7:30, stopping at all resorts.

Because they were refused about \$14 due them for overtime, section hands on the Zeeland-Vriesland section of the Pere Marquette quit work Monday.

A catfish weighing over 20 pounds was caught by Frank Doesburg, Dick Medema and Will Van Dort yesterday in the river near the waterworks.

Burglars tried to gain an entrance in the homes of C. C. Wheeler, Columbia avenue, and Edward Vaupell, East Thirteenth street, Monday night.

A pleasant lawn social was given last night by the ladies of the German Lutheran church at the home of Nick Schmidt, 122 West Ninth street.

The resorts have put on a lively air and nearly all the cottages are now occupied. Macatawa Park has undergone some great improvements this season.

Rev. J. S. Hughes of Chicago will preach at the M. E. church Sunday, morning and evening. "The Quackery of Unbelief" will be his subject in the morning.

Prof. J. T. Bergen will conduct a patriotic service at Hope church Sunday, having for his subject in the morning "Liberty," and in the evening "Equality."

The village fathers at Zeeland allowed Will Knott to give an exhibition with his dog and pony show in that town on Tuesday. Formerly a show of any kind was not allowed.

Work at the Wolverine Boat Works is far from slack this summer, and 30 men are kept busy building the fine yachts and launches for which the company has gained such a reputation.

Mrs. Peter Remers died at her home, 189 West Fourteenth street, on Sunday evening, aged 34 years. A husband and five children survive her. The funeral services were held Wednesday afternoon, Rev. Wolvis of the Fourth Reformed church officiating, and were largely attended by friends of the bereaved family.

Steamer Post Boy Monday

Monday morning the Graham & Macatawa had 200 passengers.

Born to Mr. and Mrs. M. J. Westrate, 230 College avenue, on Wednesday—a son.

Architect James Price is getting up plans for the oven building for the Walsh-De Boe Milling & Cereal Co.

Henry S. Bosch, the contractor, put in cement walks this week for J. C. Calhoun and Hans Agard, West Tenth street.

Read Du Mez Bros. advertisement regarding their line of corsets. They handle a line of which the side steel is absolutely unbreakable.

Supt. J. A. Kooyers has placed some sturgeon in the pond at Centennial Park and they are great curiosities to the average person.

John Meenaga, employed by the street railway company, had a thumb badly hurt a few days ago. Dr. H. Kreners dressed the wound.

Slagh & Zuidewind have bought a half interest in the schooner Mary Ludwig for \$250. Capt. H. Raffanau owns the other interest.

Dr. McDonald, the specialist, has gone to Potosky for his summer vacation. He will return soon to resume his monthly visits here.

Hope College souvenir postal cards can be secured at the S. A. Martin drug store, Graves Library and Van Raalte Memorial Hall and other buildings on the campus are shown.

The bountiful rains this week have done great good to the growing crops. For grass it came a little too late and hay will be a very light crop in most of the surrounding country.

All the leading dry goods merchants have agreed to close their stores all day July 4th, and will keep open the evening before, Friday, July 3rd, so as to give their clerks an all day holiday.

The Rev. J. S. Hughes of Chicago, will preach in the M. E. church, both Sunday morning and evening. His subject for the morning services will be, "The Quackery of Unbelief."

Some of the local base ball fans think that this town can now support a base ball team as well as Holland, and there is some talk of organizing a semi professional club.—G. H. Tribune.

Work has been started on a 35x50 foot addition to the foundry of the Pene Machine Works, for which Architect Price drew up plans. It will more than double the capacity of the foundry and increase the number of hands employed.

List of advertised letters at the Holland postoffice for the week ending June 26: Mrs. L. W. Bowers, Miss Minnie Christensen, Wm. A. Clark, Forest Lautis, Miss Gertrude Muller, Frances Reude, Elmer Wells.

In a few days a car will be put on the early morning run of the electric road from this city to Grand Rapids, which will be a regular buffet car, and breakfast can be secured on its enroute.—G. H. Tribune.

The council has asked the street railway company to sell family tickets, good for 40 round trips to Grand Rapids, for \$10. These books have been sold between Macatawa Park and Grand Rapids and citizens would like the same terms.

Simon Reidsema, the well known furniture dealer, who has been in that business here since 1861, will, on account of ill health, retire from business. Next month Mr. and Mrs. Reidsema expect to go to Missouri to stay for a few months.

B. Rosbach of Coral, Montcalm county, was here this week, called here by the death of his sister, Mrs. Peter Remers. Mr. Rosbach is a brother of Anthony Rosbach, the rural mail carrier. He is farming at Coral and says that Montcalm county is a county without saloons and the people are well pleased with it.

The Crystal Creamery of this city, C. J. Lokker, manager, shipped 100 tubs of butter to New York a few days ago. Such shipments are frequently made and the Crystal is doing an immense business in the shipment of butter. Cream and also eggs are shipped in large amounts.

Peter Bos and family have moved to Rudyard, upper peninsula. Mr. Bos has a farm of over 100 acres there which he intends to improve. Farming lands there are becoming higher and Rudyard will no doubt before long be a prosperous settlement.

There were 19,700 pounds of butter made by the Allegan creamery last month, for which the patrons received \$4,035.50, or twenty and one half cents per pound. An average of 23,000 pounds of milk are taken daily to the stations at Chicora, Hamilton, and Allegan.—Gazette.

Born to Mr. and Mrs. A. E. ...

... June 11—a daughter.

G. Van Patten's dry goods and grocery store will be closed all day July 4.

J. E. Cobenour reports that his new potatoes from his garden on June 12.

Good dental work is done at low prices by Duvrie, the dentist. Read his ad.

Riverside lodge No. 80, Degree of Honor, A. O. U. W., will meet at Odd Fellow hall on Friday July 3.

Allegan will have a two days' celebration—July 3 and 4. The Holland ball team will play there on Friday.

The well known hardware dealer, J. A. Van der Veen, calls your attention to some good things this week. Read his ad.

It is really too bad that there is such a lack of base ball ardor in this town. Even the small boys are not playing the great national game.—G. H. Tribune.

A social will be given this evening by the Junior league of the M. E. church in the basement of the church. A good program will be rendered and ice cream and cake will be served.

Rev. A. Trott will take part in the dedication services of the new M. E. church at West Olive next Sunday morning. Rev. Dr. J. H. Graham of Grand Rapids will also take part.

A milk car got in the way of a passenger car Sunday evening at James-town and a collision took place, wrecking the milk car and shaking up the passengers. No one was seriously injured.

The class of 1903 of the High school entertained the class of 1904 at Woodmen hall a few evenings ago. Supt. F. D. Haddock and wife and the teachers were also guests and a very pleasant time was had.

Wednesday evening as the Will Knot dog and pony show performance was taking place on West Eighth street, a section of seats broke down, carrying about a hundred people to the ground. No one was injured.

Henry Vander Ploeg delivered an address before the Young Peoples' Christian Endeavor society of Zeeland Tuesday evening, giving the doings of the C. E. Mission league convention held at New York recently, and to which he was a delegate.

Supervisor Huizenga and Poor Commissioner Van Duren of Holland removed the old lady De Jonge to the county infirmary at Eastmanville last Tuesday. The aged lady is an eccentric character and offered considerable resistance to the officers. She is the widow of the old time veterinarian, better known as "Coffee Doctor," and is a Holland township charge, having resided on the west side of State street.—Zeeland Record.

The Holland electric railway line is enjoying prosperity. This is evidenced by the fact that the company is about to place five new passenger coaches on its line, thus increasing its car service from thirty to twenty minutes. Very few interurban lines in the entire country are able to maintain at a profit a twenty-minute service over a forty mile line. The splendid connections maintained by this line with the Chicago-Holland boats gives the Grand Rapids, Holland & Lake Michigan road the liberal share of the Chicago summer traffic, both freight and passenger.—G. R. Herald.

CORSET DEPARTMENT

Vacation Days

Are Here

We have stylish, becoming and practical washable suits for the little fellows, ages 3 to 12. Also the same in knee pants. Youths Negligee shirts and collars in a variety of patterns. Youths' and boys' ironclad stockings, suspenders, overalls, etc., etc.

The closer we watch your interests the better our own interests are served. That is the theory we work out in practice.

We are always glad to have you make comparisons, for we are sure then that you'll find our values beyond compare.

A shake of the hand or a slap on the back used to sell goods. Now our customers look for values, and right here you'll find them.

A. B. BOSMAN.

John Vanderluis advertises a new stock of plaid dress goods for children's dresses at 4 cents a yard.

Don't fail to take advantage of John Vanderluis' special reduction sale of ladies' walking skirts, as these skirts must be closed out at once.

Some special good things are offered by John Vanderluis to which he calls special attention. A bargain in ladies' handkerchiefs at 25 cents, undershirts at \$1, and a sale on ladies' walking skirts that must be closed out regardless of cost.

A Kentucky lady writing in one of our farm papers says that a few lettuce seeds sown with cucumber and melon seeds is a sure prevention against the ravages of bugs. Let the two grow together until the cucumber plants are larger and then weed out the lettuce. As bugs keep clear of lettuce beds, we believe the suggestion is at least worth giving a trial.—Ex.

In May there were 30 deaths in Ottawa county, 21 being reported from Holland and 8 from Grand Haven. One death was caused by lightning, and two people died by violence. Eight were under 1 year, and 16 were over 65 years of age. Tuberculosis caused two deaths, typhoid and measles one each, whooping cough one and pneumonia four. The remainder were from various causes.

A Frightened Horse.
Running like mad down the street, dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable safe handy and there's none as good as Bucklen's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles, disappear quickly under its soothing effect. 25c, at W. C. Walsh's drug store.
